ACCOMPLISHMENT REQUIREMENTS FOR MEDICAL STUDENTS IN PHARMACOLOGY AND PHARMACOTHERAPY I.

Considering the Academic and Examination Regulations of the University of Szeged and the Faculty Academic Regulations the conditions for semester accomplishment at the Department of Pharmacology and Pharmacotherapy are as follows:

1/ Participation in courses taken up in the electronic study system (Neptun) is compulsory. The attendance of the practical will be continuously monitored by the Department. **In case of absence over 25 % the department will refuse the acceptance of the practical course, the student cannot be admitted to the end semester examination.** Certificates concerning the absence should be presented to the Educational Representative within 1 week upon arrival. The Educational Representative of the Department (not the teacher of the practical) may permit supplementation of the missing practical (max. 2 times during the semester) in the given week with another practice group.

2/ In this semester, there will be three MTOs during the practicals on dates specified in the curriculum. Participation in each MTO is compulsory. In case of absence, MTO can be substituted only if the student officially justifies the absence (e.g. by a final report from the hospital). The grade of missing MTOs will be failed (1). **One occasion is permitted for each MTO (no repetition).**

3/ The MTOs and the End Semester Exam' (ESE) consist of multiple choice test questions. Each correct answer is worth 1 point, each incorrect answer -0.5 point (deduction). Thresholds for different marks are:

60 % -	passed (2)
70 % -	accepted (3)
80 % -	good (4)
90 % -	excellent (5)

4/ The ESE is taken in a written form, covering all topics discussed during this semester. An offered grade for ESE may be achieved based on the average of the results of the three demonstrations, but **the criterion of the grade offered is that the results of each of the three MTOs must be at least passed (2).** The offered grades are as follows:

- > 2,5 accepted (3)
- > 3,5 good (4)
- > 4,5 excellent (5)

5/ The active presence at the lectures will be controlled randomly by taking short test questions from the topic of the actual lecture. Those students who obtain at least 80 % of the points available on the tests in the lectures during the semester will receive a bonus of +10 %.

The +10% bonus can be used in 2 ways, but only once:

1. added to the % result of one MTO (if required for the offered grade)
2. added to the % result of the end semester exam

The +10% bonus is valid only for the first examination attempt and cannot be used for retake or improving re-examination.

Szeged, 12th February, 2024.
